

## Cosmetic Surgery at Spire Leeds Hospital: Why we are ranked so highly

We know that choosing a surgeon and hospital for cosmetic treatment can be daunting. Different facilities and clinics do provide different levels of service but there are key aspects to a cosmetic service which we feel should be in place before anyone decides to take the step of having surgery. Spire Leeds offers the highest level of service and care according to our patients and here is why ;

### Spire Leeds Hospital's credentials for providing a quality, cosmetic surgery service.

Part of Spire Healthcare, the UK's 2nd largest private hospital network, Spire's flagship hospital in Roundhay, Leeds was opened in 1989 and has treated over 15,000 cosmetic surgery patients. With a team of 10 cosmetic surgeons it is one of the country's largest cosmetic surgery centres and has a network of previous patients who are happy to talk to anyone considering surgery and give their un-biased account of their experiences with us!

We have 0% MRSA rates\* since 2008.

### Consultants with the highest levels of qualifications and experience in their field

A cosmetic surgeon's reputation, qualifications and experience are vitally important – our surgeons enjoy national and international reputations in their field.

Each of our consultants is listed on the specialist register of the General Medical Council (GMC). They are also members of one or more of the UK's leading cosmetic and plastic surgery associations; *the British Association of Aesthetic and Plastic Surgeons (BAAPS)* and *the British Association of Plastic Reconstructive and Aesthetic Surgeons (BAPRAS)*.

Our consultants will always give you their professional opinion – this may mean that they don't recommend you have any surgery or treatment after your consultation.

Our consultants all have full UK medical indemnity (insurance).

### Caring for you - the UK's largest team of specialist cosmetic surgery nurses

Spire Leeds has a team of 6 specialist cosmetic surgery nurses who care for you every step of the way, from your first consultation to your final follow up visit. They work alongside the consultants and have substantial experience of nursing every one of our cosmetic patients.

We do not use temporary agency nurses; our patients get to know members of our nurse team personally during their care.

### Your choice – surgeon, appointment time, surgery date, procedure

You can choose the consultant you would like to see or you can come along to any of our free events to meet members of our surgeon team and talk through to decide who you feel most comfortable with.

Our service is completely consultant-led – you will see your consultant for your first consultation and then stay under the 24-hour care of this consultant until you are fully discharged.

You can choose when to come for your initial consultation – we open 6 days a week and offer 30 consultant clinics a week.

You only pay one consultation fee – if you need two, three or even more consultations, the surgeon will not charge you more. Our responsibility to you is that you are given all the information you need to make your choice.

You can choose when to have surgery to fit in with your schedule – patients can usually have surgery within weeks of their consultation if they wish. Our only requirement is that you wait for minimum 2 weeks following your consultation before having surgery so that you can ensure you have had sufficient time to make the right choice.

### We make it as easy as possible for you – no travelling, no money up front

You will have all your consultations, surgery and follow ups at Spire Leeds so you don't have to travel to a separate site for your surgery.

This is important to bear in mind as some patients do come back into hospital to have dressings changed/receive out of hours care or just want some reassurance and this is always easy when you are coming back somewhere you know, to see professionals you know.

We do not ask you to pay for any hospital fees until you have decided that you want to go ahead with surgery.

When you do decide you want to go ahead, we will give you a fixed price\* for your cosmetic surgery which gives you the reassurance of knowing the full costs before you come into hospital.

\* bacteraemia \*\*Terms and conditions apply – copy available, please ask.
